

## **Join the Great Awakening!**

The Great Awakening recognizes the sober truth that we live in a highly controlled, manufactured society that has been meticulously designed and molded to make us comply, obey, and submit to our own destruction and certain death. For those of you who resonate with this sobering truth, welcome. You have found your brothers and sisters.

For those of you don't recognize this truth, welcome. We invite your genuine curiosity and openness. While we are unapologetic about speaking the truth, we do recognize that it may be considerably jarring and disorienting to ponder. So we ask for your polite consideration if we say something that jolts or offends you. We do it on purpose, not to be arrogant or confrontational, but to break a spell. Respectively, sometimes to break a spell, hypnotic trance, or stupor you must be grabbed by the shoulders and shaken into an awakened state. So, for those of you who don't yet recognize this truth, we welcome you with loving nonjudgmental arms, and apologize in advance if we seem pompous. We are not. But we are endangered, and desperate to gather those ready to get to work and desperate to wake those up from the stupor only a spell can create.

For a moment, suspend the notion that we live in a highly controlled, manufactured society that has been meticulously designed and molded to make us comply, obey, and submit to our own destruction and certain death. Even if you question or deny this truth, ask yourself, how's my life? Do you work most of the time, just to live paycheck to paycheck, or close to it? Are you one tragedy away from poverty, or living in it now? Do you ache when you think about how little time you have to spend with your family and loved ones? Do you wonder why so much of your schooling didn't teach you practical skills that promote your independence or knowledge about how society truly works? Do you sometimes wonder if there were rules to this game of life you were never told? Do you trust politicians? Bankers? The pharmaceutical industry?

If you have an instinct that something just isn't right or if you know for certain we are on a destructive crash course to extinction, you have found a valuable resource in this website. Bookmark it. Come back. Unlearn. Ponder. Reeducate. Expand your knowledge. Grow in your power. Take action. Dare to dream of a life where you thrive and no longer worry, about anything.

Sovereignty and abundance is our birthright. Let's start living like it and take control of our lives. Unlearn. Reeducate. Thrive. Live in harmony. Celebrate the wonder and love. Never feel alone again.

## Living Law Society, Principles/Creed

1. **America**: America—and the promise it holds for all people across the world—is in peril, and on the brink of being destroyed by a murderous foreign Corporate Criminal Cartel masquerading as government. If America is destroyed, so too is the idea that all men and women (in America and beyond) are created equal and have the rights to Life, Liberty and the pursuit of Happiness.
2. **Awareness**: Through the use of debt, trickery, fear, and poison most Americans are unaware that they are enslaved by this foreign Corporate Criminal Cartel.
3. **Status Quo**: Complacency and conformity are our enemy. We must question, unlearn, reeducate, and act to save “We the People”. It is our duty and our obligation as Americans and **protectors** of “We the People” to do so.
4. **Truth**: The truth (and use of the real laws) will set you free.
5. **Reeducation**: With reeducation, courage easily replaces complacency with, and obedience to, the status quo. We must rise up and say NO MORE! We forbid and disallow criminal behavior that deliberately poisons our air, water, land, food, bodies, and our relationships with endless lies.
6. **Psychology**: Words, images, and story telling powerfully influence our minds, and therefore our actions. Through media and public (mis)education we have been indoctrinated to believe that law is difficult and inaccessible or that we are the “land of the free”. We are not free [yet]. We are however home of the brave, and education and bravery and lawful action will set us—and the world—free.
7. **Politics**: We are apolitical. We now comprehend that the left-right paradigm is a lie designed to divide and conquer us all through manipulation and control [see problem-reaction-solution, Hegelian dialectic]. The only true paradigm is those who see through this lie and those who don’t yet see it. Politics is nothing more than a theatrical distraction from facing our real enemy—a foreign Corporate Criminal Cartel masquerading as government. Defeating the foreign Corporate Criminal Cartel allows us to return to our natural state of being, which is one of unity, cooperation, abundance, love, and harmony.
8. **Higher Power**: We find strength in a higher power and acknowledge a Creator. We believe all men and women can unite across any and all differences and find the strength necessary to defeat the foreign Corporate Criminal Cartel that seeks to destroy, enslave, and kill us all.
9. **Anticorruption**: We are not antigovernment. We are, however, emphatically and unmistakably anticorruption. We despise corruption, especially corruption in the hands of a democidal imposter government who seeks to kill not only us but also our sons and daughters. With love for each other and our country and respect for the law, we rise up together to pulverize this corrupted threat, once and for all.

10. **“We the People”**: We believe that “We the People” includes all men and women of this world; and, “We the People” have a birthright to sovereignty and abundance for all. Let’s get to work.

## **Living Law Society, Values**

1. **Knowledge**: Aristotle once said that “Knowing yourself is the beginning of all wisdom.” Who are you really? Are you a man? A woman? A “person”? A federal “citizen”? It doesn’t take much study to realize that if you identify as a “person” or federal “citizen” [UNITED STATES citizen] you step into the jurisdiction of the foreign Corporate Criminal Cartel and will be controlled and enslaved by them.

And the People said, “No!”

A maxim of law is that you can only control that which you create. If the Corporate Criminal Cartel created “person” or “citizen” and you adopt those identities, guess who controls you? But if you know that you are a man or a woman, created by the Creator and endowed with certain unalienable Rights, you boldly step into your power and dictate and direct your own life, AND protect your property and sons and daughters. In fact, if the foreign Corporate Criminal Cartel attempts to control or violate you, they likely will break a law or one of their own codes and can be held to account, by you! It’s that simple.

2. **Sovereignty**: Sovereignty is simply having supreme authority over your life, your body, and your property, which includes your unalienable Rights. Knowing that you are Sovereign is potent. Sovereignty is also a powerful word: It can break the indoctrination slave spell, the hypnotic trance. So, don’t be surprised that the foreign Corporate Criminal Cartel has attempted to label sovereignty as “bad” or “criminal” or “illegal.” It’s their propaganda.

Don’t be trapped by their word play trickery.

You cannot be both a Sovereign AND a UNITED STATES citizen. It’s an oxymoron. Saying you are a “sovereign citizen” is like saying you are a “free slave.” You cannot be both. Don’t ever refer to yourself as a sovereign citizen. To degrade yourself with that term means you need more reeducation. Start studying. You cannot be a “free slave” just like you cannot be a “sovereign citizen.” To be a UNITE STATES citizen is to be a slave. To be sovereign is to have supreme authority over your body and property—to be free—and to hold those who violate your Rights to account using Due Process of Law.

As you will learn, to say you are a UNITED STATES citizen is the opposite of being a free American.

3. **Courage**: We call all men and women to rise up and imagine all of your ancestors that fought for your freedom. Show unstoppable determination, get out your pens, and write and

serve **notices** to men and women impersonating government working for the wicked foreign Corporate Criminal Cartel. Actors (men and women) impersonating government hiding behind corporate uniforms are still subject to personal and criminal liability for their crimes. They have no protection. Look into the eyes of your brothers and sisters and call upon the spirits of your ancestors to find the courage and backbone to say, “No more. Your democide ends now! Join our side immediately or face personal and criminal accountability for international war crimes.” Let’s all rise up together.

4. **Action:** Self-serving evil corporate criminals determined to commit democide don’t suddenly have a change of heart. They must be taken down now or we face certain destruction or death.
5. **Discernment:** In a time of “controlled opposition” coupled with centuries of foreign agents [moles] doing treasonous dirty work for the Corporate Criminal Cartel, we must be discerning. Moles are masters at building trust. We don’t let fear or paranoia interfere with necessary coalition building, but we do verify. Everyone is on Notice that they face personal and criminal liabilities should they trespass or commit treason against the American People.
6. **Unity:** We are not fooled by manufactured divisions, however well concocted and fabricated. We are not Republicans or Democrats, We are not Black or White, We are not left or right. We are one, bound together as "We the People”, the American People, who will defend and protect our counties, communities, land, air, water, sovereignty, Rights, and families. “We the People” of 193 countries are unstoppable when we stand together as One against tyranny and the Corporate Criminal Cartel. We are many; they are few. We’ve got the numbers; they do not. Let us rise up together across the world with one voice. And then the People said No, and a new Golden age was born.
7. **Strength:** Government was instituted to protect “We the People”, not to harm us, which is obviously unlawful and forbidden. Our spirit and force are unmatched. And while the magnitude of our collective power is nothing seen or experienced before, we know it resides within us. We fight for what is right. And we fight for what is rightfully ours. We cannot and will not be stopped. Find your passion in this movement, express your voice, courage and let your courage shine and inspire the next. The power of truth resides in all of us and it is unstoppable.
8. **Honor:** We cherish the life we have been given and honor and hold in high regard all life form. We offer mercy, compassion, and healing for those who unknowingly supported or worked for the foreign Corporate Criminal Cartel who take responsibility for their actions and ask for our forgiveness. For those criminals acting treasonously who are engaged in democide and the depopulation of all species on Earth, we pray for your soul and will also hold you to account to the fullest extent of the law.
9. **Abundance:** Earth is undeniably bountiful. She provides all the nourishment, sustenance, and medicine we need to thrive and live freely. We have all the necessary resources to realize our full potential and live into our Right to Life, Liberty, and the pursuit of Happiness. We

honor Earth and will restore her to her original, pristine, and glorious form. We will live in harmony and balance with Earth.

Consider that if the pen doesn't work, we will rely on the sword.

We've been battered to re-join the flock of sheep and stay in line. We've been called every name in the book. Every psychological tactic has been used against us. They fear what they cannot control. We cannot unlearn what we know about the endless lies. How much longer will you accept...How much longer...You are not mad. You are not alone. Your inner spark knows the truth..We must accept the truth that a small yet powerful group of evil \_\_\_\_ seeks to destroy the spirit of America and kill us. Once our eyes are opened, we cannot unsee what we now know to be true. go back to pretending/believing things were ever normal, just unfolding organically. We can now see how the America, its people, and its social structures and history have been used, manipulated, and molded for more than 150 years, as if we were a battery to power the building of a One World Order Talmudic/One World Wicked Order, AI driven World wide Slave system that will mark the end of morality and freedom for everyone, if we let it.

The System is the problem. You cannot beat the System if you play by the System's rules. The System created a false world reality which many of us believed for most of our lives was normal. The controllers kept us in a permanent state of fight or flight or running so hard on the hamster wheel eking out just enough ~~to live on~~ to survive, that we were incapable of being still for long enough to see through their agenda to enslave us, to keep us ill, and ultimately kill us ~~and dying~~.

Meanwhile the satanic/evil controllers have held and controlled nearly all the levers of true power, which they designed to funnel us all in to their one world government end game agenda.

Thinking this is all about beating a left – ~~R~~/right political party is still living in this false, highly manufactured paradigm arena. **We must be outside of the arena to truly win.** We must ascend and **rise together**. The trials and threats aren't over. No paradigm shift takes place without a shaking. The world is in a shaking. War is ugly and we are in a war. Make no mistake about it. Do you really think you can sit this one out? Be unshakeable. Do not forget that the best is yet to come!

Sovereignty and abundance for all. Let's get to work.
